

Maths Sequence of Learning

Stage 2	Stage 3	Stage 4	Stage 5	Stage 6	Stage 7	Stage 8	Stage 9
Measures A	Algebraic Manipulation	Negative numbers	Rounding and Limits	Fractions	Pythagoras' Theorem & Trigonometry	Averages and Cumulative Frequency	Indices and Surds
Place Value	Factors Multiples and Primes	Algebraic Manipulation	Pythagoras' Theorem & Trigonometry	Indices and Surds	Simultaneous Equations	Sequences	Fractions
Calculations A	Calculations B	Indices and Surds	Decimals A	Perimeter	Area	Data	Algebraic Manipulation
Negative Numbers	Fractions	Area	Indices and Surds	Measures	Averages and Cumulative Frequency	Ratio and Proportion A	Simultaneous Equations
Fractions	Measures	Fractions	Solving Linear Equations	Factors Multiples and Primes	Formulae	Algebraic Manipulation	Formulae
Decimals	Percentages	Calculations	Measures	Sequences	Solving Linear Equations	Probability	Angles
Calculations B	Averages and Cumulative Frequency	Solving Linear Equations	Formulae	Angles A	Percentages	Transformations	Plotting Non-Linear Equations (A,B,C,D)
Perimeter	Rounding and Limits	Shape and Construction	Perimeter	Data	Plotting Linear Equations	Rounding and Limits	Pythagoras' Theorem & Trigonometry
Measures B	Calculations A	Angles	Decimals B	Averages and Cumulative Frequency	Data	Decimals	Solving Linear Equations
Factors Multiples and Primes	Decimals	Percentages	Percentages	Plotting Linear Equations	Rounding and Limits	Solving Non-Linear Equations	Shape and Construction
Data	Angles	Plotting Linear Equations	Data	Algebraic Manipulation	Volume	Plotting Linear Equations	Solving Non-Linear Equations
Shape and Construction	Data	Decimals	Angles	Area	Indices and Surds	Indices and Surds	Sequences
	Plotting Linear Equations	Volume	Area	Ratio and Proportion	Shape and Construction	Plotting Non-Linear Equations	
	Transformations	Measures	Ratio and Proportion	Probability	Plotting Non-Linear Equations	Pythagoras' Theorem & Trigonometry	
	Solving Linear Equations	Sequences	Probability	Solving Linear Equations	Ratio and Proportion	Shape and Construction	
	Ratio and Proportion	Transformations	Volume	Shapes and Construction	Measures	Ratio and Proportion B	
		Ratio and Proportion	Plotting Linear Equations	Solving Non-Linear Equations			
		Averages and Cumulative Frequency	Shape and Construction	Angles B			
		Probability	Transformations
